1" of text height = 50' reading distance

Example - 30" letters = 1500' distance

Design:

1) Use readable fonts, bold, avoiding the ornate

2) Use high contrast

3) Digital LED billboards cannot reproduce white backgrounds on any creatives submitted from Lessee. If Lessee provides creative proof(s) using white backgrounds, the actual color will appear as a white/grey scale once creative is uploaded to the LED board. *We highly recommends using darker backgrounds with lighter copy to provide better contrast and clarity.*
